

Save Furlong Close

Antonia Field

“I know this news may come
as a surprise to you”

It “will likely be a cause for
concern”

“I wanted to explain the reasoning behind this decision and what this will mean for your relative

“As you will know the site at
Furlong Close is a campus site”

“As best-practice guidelines from our regulator, the CQC, have changed and developed over time. It has been acknowledged that campus sites often do not provide best outcomes for people”

“CQC and Wiltshire Council
will no longer be supporting this
model of care or register a
service like (Furlong Close)”

- “ Together they (Wiltshire and the CQC) share our belief that supporting people to live as independently as possible in smaller, community-based settings where people have more independence, choice and control over their lives will provide them with better outcomes”

“Both Hft and Wiltshire Council
are acutely aware of the
potential disruption that can
come with the closure of the
service”
